

LIFEGUARDS AND RATIOS

We will continue to exceed American Red Cross Lifeguard Assn. and American Camp Assn. standards for pool supervision. All of the counselors who work in the pool have been certified as Lifeguards by the American Red Cross. This summer, we have 27 counselors on staff who are certified as American Red Cross Lifeguards. Nine of them are also certified as American Red Cross Water Safety Instructors. The counselors who teach swimming lessons at camp have a particular focus on teaching young swimmers.

POOL RULES

Campers participating in activities at the pool must observe all pool rules. Generally, if a camper does not observe the rules, a Lifeguard/counselor present in the pool will talk to that camper. If the problem persists, the counselor may remove the camper from the pool and notify parents. If the counselor feels that this is an ongoing problem, he or she will discuss the matter with the Director. The Director may preclude campers from accessing the pool at any time.
