

Attention Ragi Ghaoui, Los Angeles Co. Public Health Dept.

I am a certified pool technician, licensed by Los Angeles County. I performed a Decontamination/Disinfection of The Angelus Mountain Center/Summerkids pool at 3697 No. Fair Oaks Ave., Altadena on Saturday, July 6. The rates when I started at 9:45 a. m were:

DPD 3.0 PH 7.5 Alkaline 120

I returned the same day at 11:00am & restored the pool to the required range:

DPD 4.0 PH 7.4 Alkaline 100

There are no cartridges that needed to be replaced.

INFORMATION RE THE CONTAMINATION INCIDENT

On the morning of June 28, 2019, the pool at The Angelus Mountain Center/ Summerkids levels had been checked at 7:30 a.m. The chlorine level at that time was 2.6 and no chlorine was added. The ph level was 7.5. The temperature was 82 degrees.

At the time of the accident (9:38 a. m.) there were 30 swimmers in the pool, monitored by 4 American Red Cross certified lifeguards.

Camper X (a 6-year-old girl) was observed floating facedown in the shallow end of the pool. A lifeguard immediately pulled her out and began CPR while another called 911. Paramedics arrived and transported Camper X who was still alive from the scene.

There was no stool, vomit or blood in the pool as a result of the accident.

The pool has not been used since the accident.
